Charter a private Airbus Helicopter Dolphin

Photos d'archives. Description indicative et non contractuelle.

Helicopters on demand flights

Ideal for going door to door! Comfortable and spacious, the Dolphin lets you land directly on your property or at your factory. Its principal advantage is being able to take you directly to your destination after a short trip. This is particularly useful between two points poorly connected by the road infrastructure or on days of heavy traffic, when you can't take the risk of losing time in traffic jams. The VIP version can host up to 5 passengers in excellent comfort. An idea for an excursion: **visit the Mont Saint-Michel or the D-Day beaches in Normandy** departing from the Paris heliport.
